-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Notice of Non-Responsive Amendment

1. The reply filed on May 9, 2005 is not fully responsive to the prior Office Action because of the following omission(s) or matter(s): Newly submitted claim 27-64, claims 1-26 being canceled, directed to at least two inventions that are independent or distinct from the invention originally claimed for the following reasons:

The originally filed claims, claims 1-26 (Group I), were directed to the negotiation of transportation contracts, specifically contracts for transportation lanes classified in class 705 subclass 8. In sharp contrast to the newly submitted claims 27-64 (Group II) wherein claims 27-57 (Group III) being directed to the auctioning of transportation services, with no mention of contracts or transportation lanes, classified in class 705 subclass 26 and claims 58-64 being directed to a generic multiple-level auctioning classified in class 705 subclass 26.

The Inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as awarding transportation lane contracts. The subcombination has a separate utility such as auctioning one or more of a plurality of transportation services. See MPEP § 806.05(d).

Inventions I and III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are

Art Unit: 3623

shown to be separately usable. In the instant case, invention I has separate utility such as awarding transportation lane contracts. The subcombination has a separate utility such as auctioning transportation lanes in a multi-level auction marketplace. See MPEP § 806.05(d).

Inventions II and III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention II has separate utility such as auctioning one or more of a plurality of transportation services. The subcombination has a separate utility such as auctioning transportation or other business goods/services in a multi-level auction marketplace. See MPEP § 806.05(d).

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Because these inventions are distinct for the reasons given above and the search required for Groups I, II or III are not required for Groups I, II or III restriction for examination purposes as indicated is proper.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 27-64 are withdrawn from consideration

Art Unit: 3623

as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

Subsequently there are no remaining claims to be examined.

See 37 CFR 1.111. Since the above-mentioned reply appears to be *bona fide*, applicant is given **ONE (1) MONTH or THIRTY (30) DAYS** from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Scott L. Jarrett whose telephone number is (571) 272-7033. The examiner can normally be reached on Monday-Friday, 8:00AM - 5:00PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Hafiz Tariq can be reached on (571) 272-6729. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
